

SOFTWARE ENGINEER, FRONT END

NOV 2016 – MAY 2018 | RESAAS, VANCOUVER BC

One of the **top performing** engineers in first year with the company. Ran front end **strategy meetings** and **architecture improvement** proposals, designated **Specialty Area Owner** for CSS, HTML, and Responsive Design. As **Epic Owner**, specced out technical architecture, product requirements, created tickets, and presented proposals to stakeholders and team. Became **go-to and main support** for UX/UI designer and mentor to FE team in **UX, accessibility, and styling** matters.

Proactive in finding gaps and solutions, leading to spearheading initiatives such as creating **UI component library & committee**, replacing Ruby/Compass with **Node**, and repeatedly winning company **devhacks**.

Base responsibilities included engineering comprehensive and viable designs, participating in **design reviews, code reviews**, writing unit and UI tests, and **collaborating** with team and stakeholders on a daily basis.

LEAD FRONT END DEVELOPER

OCT 2015 – JULY 2016 | BAYTEK, OTTAWA ON

Responsible for all front end work. Contributed plans to **modernize and standardize** build process and tools, **created and maintained** agency templates, sample packages, and **Wordpress theme**. **Assessed** prospective agency partners' **code and design quality**, worked with clients and partners to **guide building processes**, and **conducted CMS training**. Working in a small team increased both understanding of and **responsibility for all stages** of each project, while direct client relations helped foster **planning abilities**.

FRONT END DEVELOPER

MAY 2014 – OCT 2015 | ATOMIC MOTION, OTTAWA ON

Spearheaded implementation of **version control, preprocessors**, and design **style guides**. Began building a **modular framework** to significantly advance workflow. Improved **time management**, handling **tight deadlines**, understanding of Wordpress and **web standards**, and development for legacy **browser support**.

WEB DEVELOPER AND DESIGNER

SEPT 2012 – JULY 2016 | FREELANCE

Helped local small businesses **measurably improve** their **online presence, increase sales**, and create **brand awareness**. Sharpened skill set and experience gained in business **management** and **client relations**.
